MYCOTOXINS ELIMINATOR

WHY USING A MYCOTOXIN ELIMINATOR?

Mycotoxicosis, the combination of signs and symptoms caused by mycotoxins that are omnipresent in animal feed, affect performance of animals dramatically. Moreover, different strategies are required to protect your animal against a wide range of mycotoxins with specific toxicity. Therefore the preventive use of a broad range mycotoxin eliminator is crucial to ensure technical and economical performance.

ELITOX® product range

Application	Mode of action	Species	Product name
Solid (feed/premixes)	Preventive	Poultry, Swine, Cattle & equine, Aqua	ELITOX® (1 solution)
